

IWIRC Network Logo Design Policy
(Updated March 2014)

IWIRC Networks may design their own logos to use for local marketing, but the following guidelines must be followed:

1. The Network logo must specifically identify itself as “IWIRC [applicable local] Network”
2. The E-Board must sign off on the logo before it can be used by the Network. Please send the prototype of the logo to the Executive Director (Shari Bedker at sbedker@iwirc.com) who will send for the logo to the E-Board for approval. The Executive Director will notify the Network of approval or any changes that the E-Board requests.
3. Everything printed or published on-line must also have the official IWIRC International logo on it in addition to the Network specific logo.
